Subject: Storm Frank flooding
Date: 29 October 2018 17:31:26

Hello;

Kemnay Community Council has noted that in your [Strategic Flood Risk Assessment](#), pages 24-25 you have the wrong date for the flooding that came about from Storm Frank. It is indelibly etched into our memories and the history books as having occurred in January of 2016, not January of 2017 as your report says.

Would you please correct this and let us know when it is done?

Thank you,

[REDACTED]
